Story Summary.

Captain Jacob Ravens is the greatest pirate to ever sail the seas. He has treasure, fame, a legendary ship and enough stories to fill a hundred books.

Unfortunately, he also has a problem; His mother is dying. Most people would accept fate. Jacob is not most people.

After hearing old legends about the Fountain of Youth, a magical spring hidden somewhere beyond the mysterious Ice Wall at the edge of the world, Jacob decides there is only one reasonable solution:

Sail into an unexplored magical world filled with monsters, ancient civilizations, wizards, giant sea creatures and whatever other nonsense may be waiting for him.

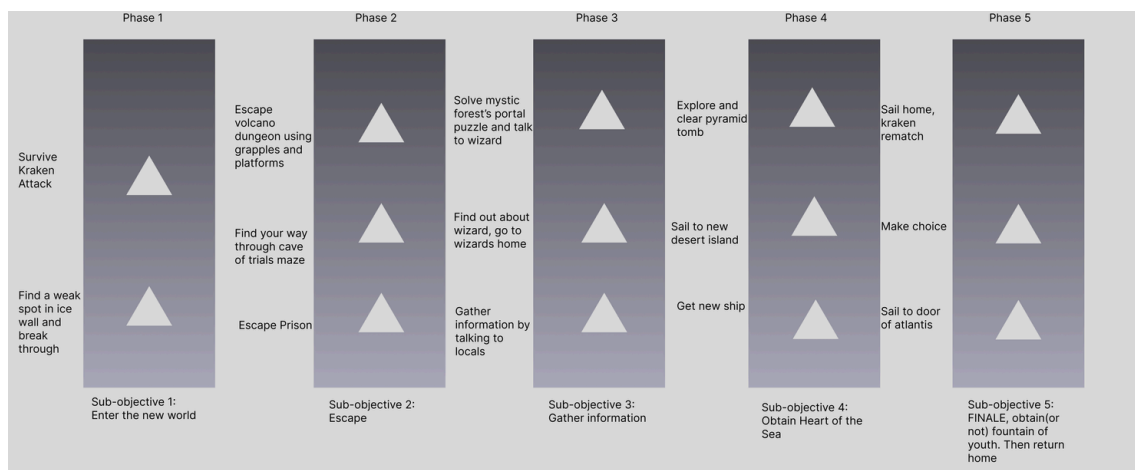

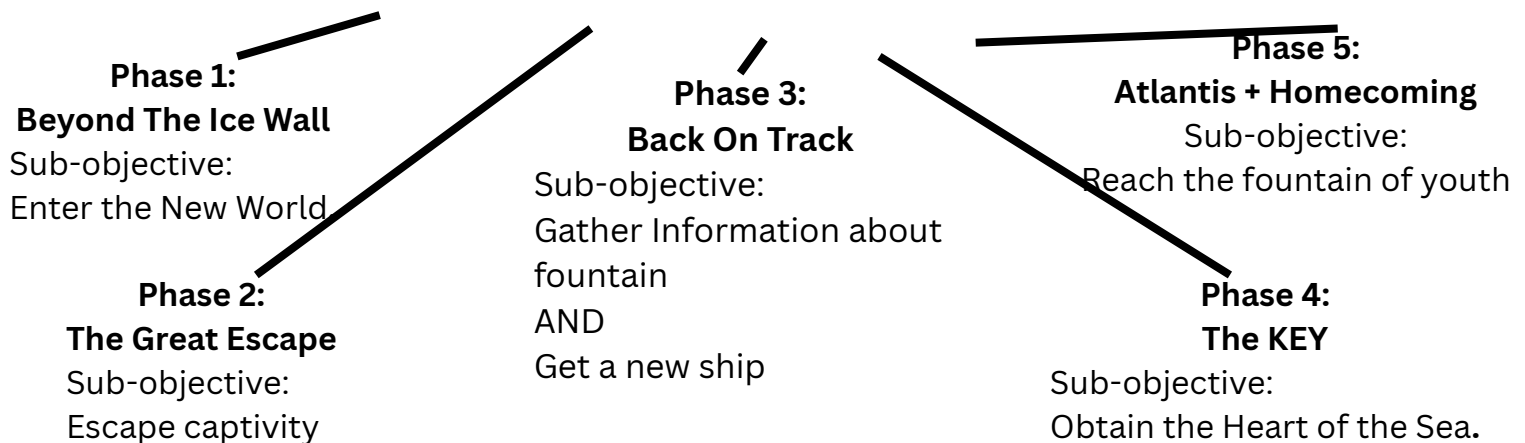

Armed with nothing but determination, questionable decision-making skills and an unhealthy amount of confidence, Jacob sets off on the most ridiculous adventure of his life. His journey will take him through volcanic prisons, ancient trials, magical forests, forgotten pyramids and even the legendary underwater city of Atlantis.

However, the closer he gets to the Fountain of Youth, the more he realizes that some legends are hidden for a reason.

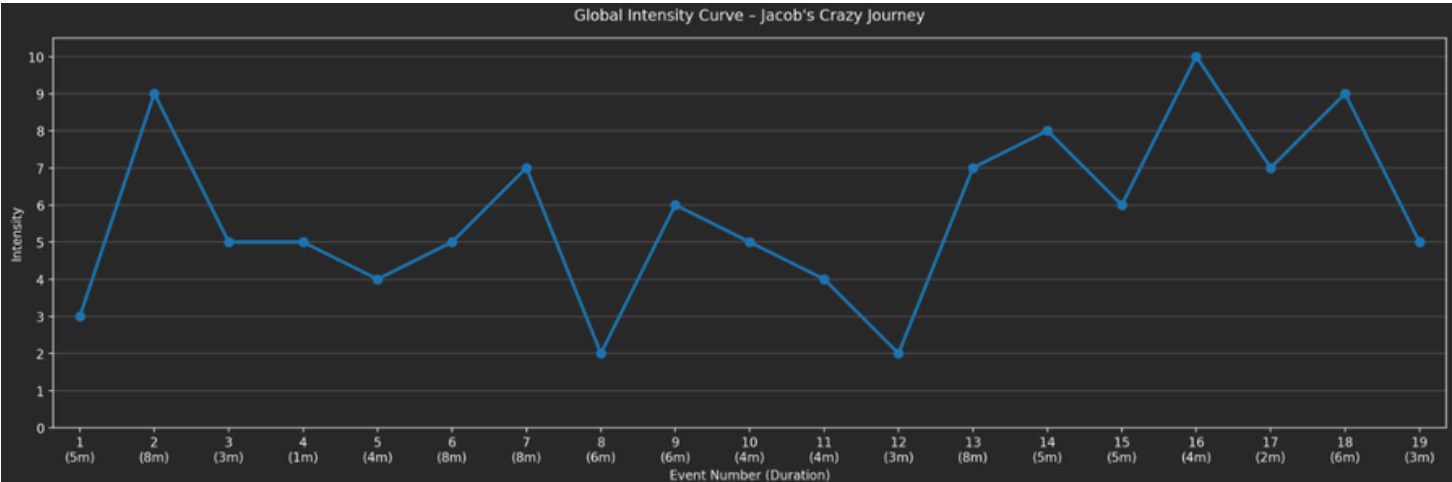

To save his mother, Jacob may have to make a choice that could change the fate of an entire world.

MAIN OBJECTIVE

- Obtain water from the Fountain of Youth and return home before Jacob's mother dies.

GLOBAL MAP

Programme:

Unedited map

The map of the new world. Seas that exist outside of charted maps, housing monsters and harboring magic that defies all logic. Home of the legendary fountain of youth(or so they say). In the open waters, there exist **fishing spots** to fish, **underwater caves** to find loot and **shipwrecks** for loot! Doing these will give extra gold

PHASE 1 – ENTERING THE NEW WORLD

Objective:

Break through the Ice Wall and survive arrival in the New World.
