Mechanics

A = Roll

B = Card throw

B' = Vertical card throw

C = Locked door, needs key

D = Break block

E = Jump

E' = Jump in water

F = Midair dash

F' = Precise midair dash

G = Ice gun

G' = Diagonal Ice shot

G'' = Ice gun spread

Theme

Primary focus : Puzzle style rooms

Secondary focus: Juggling usage of different skills

Prison Break was designed to be a normal difficulty puzzle style map. It intentionally has more mechanics as the goal is to challenge the players by having them juggle through multiple skills to clear each room. There is a moderate amount of parkour and skill jumps but majority of them are not super punishing due to placement of checkpoints or safe spots. The final room is designed such that if players spent extra effort to pick up each of the “useless” purple keys as they played, they can skip the last room which is meant to be the most difficult.

Cadence

Zone	Room / Challenge	Cadence	Intensity
1	Roll to next room	A	1
2	Card throw to get key, open locked door, break block, get key	B + C + D	3
3	Vertical card shoot	B'	2
4	Parkour and shoot card midair	B + E	4
5	Roll and use card throw to reactivate door	A + B	3
6	Midair dash to get past gap	F	3
7	Midair dash while jumping	E + F	5
8	Jump and card throw for key	B + E'	4
9	Jump, midair card throw, break block, get key	B + D + E	4
10	Midair dash to get past 1 block	F'	5
11	Midair dash to safety, roll down 1 block	F + A	6
12	Jump in water to get ability	E'	6
13	Use ice gun to freeze fire and walk on it	G	5
14	Use diagonal ice shot to activate platform	G'	5
15	Use spreading ice shot to activate	G''	4
16	Midair dashes	F	7
