

PROJECT

XENO

STUDYING THE PERFECT PREDATOR

CSD2183 - TEAM 19

ALIEN ISOLATION

IN SPACE NO ONE CAN HEAR YOU SCREAM

SYNOPSIS

A FIRST PERSON SURVIVAL HORROR ADVENTURE SET FIFTEEN YEARS AFTER THE EVENTS OF ALIEN (1979), WHERE YOU ARE TRAPPED ON A SPACE STATION WITH THE ALIEN.

UNIQUE
REPUTATION

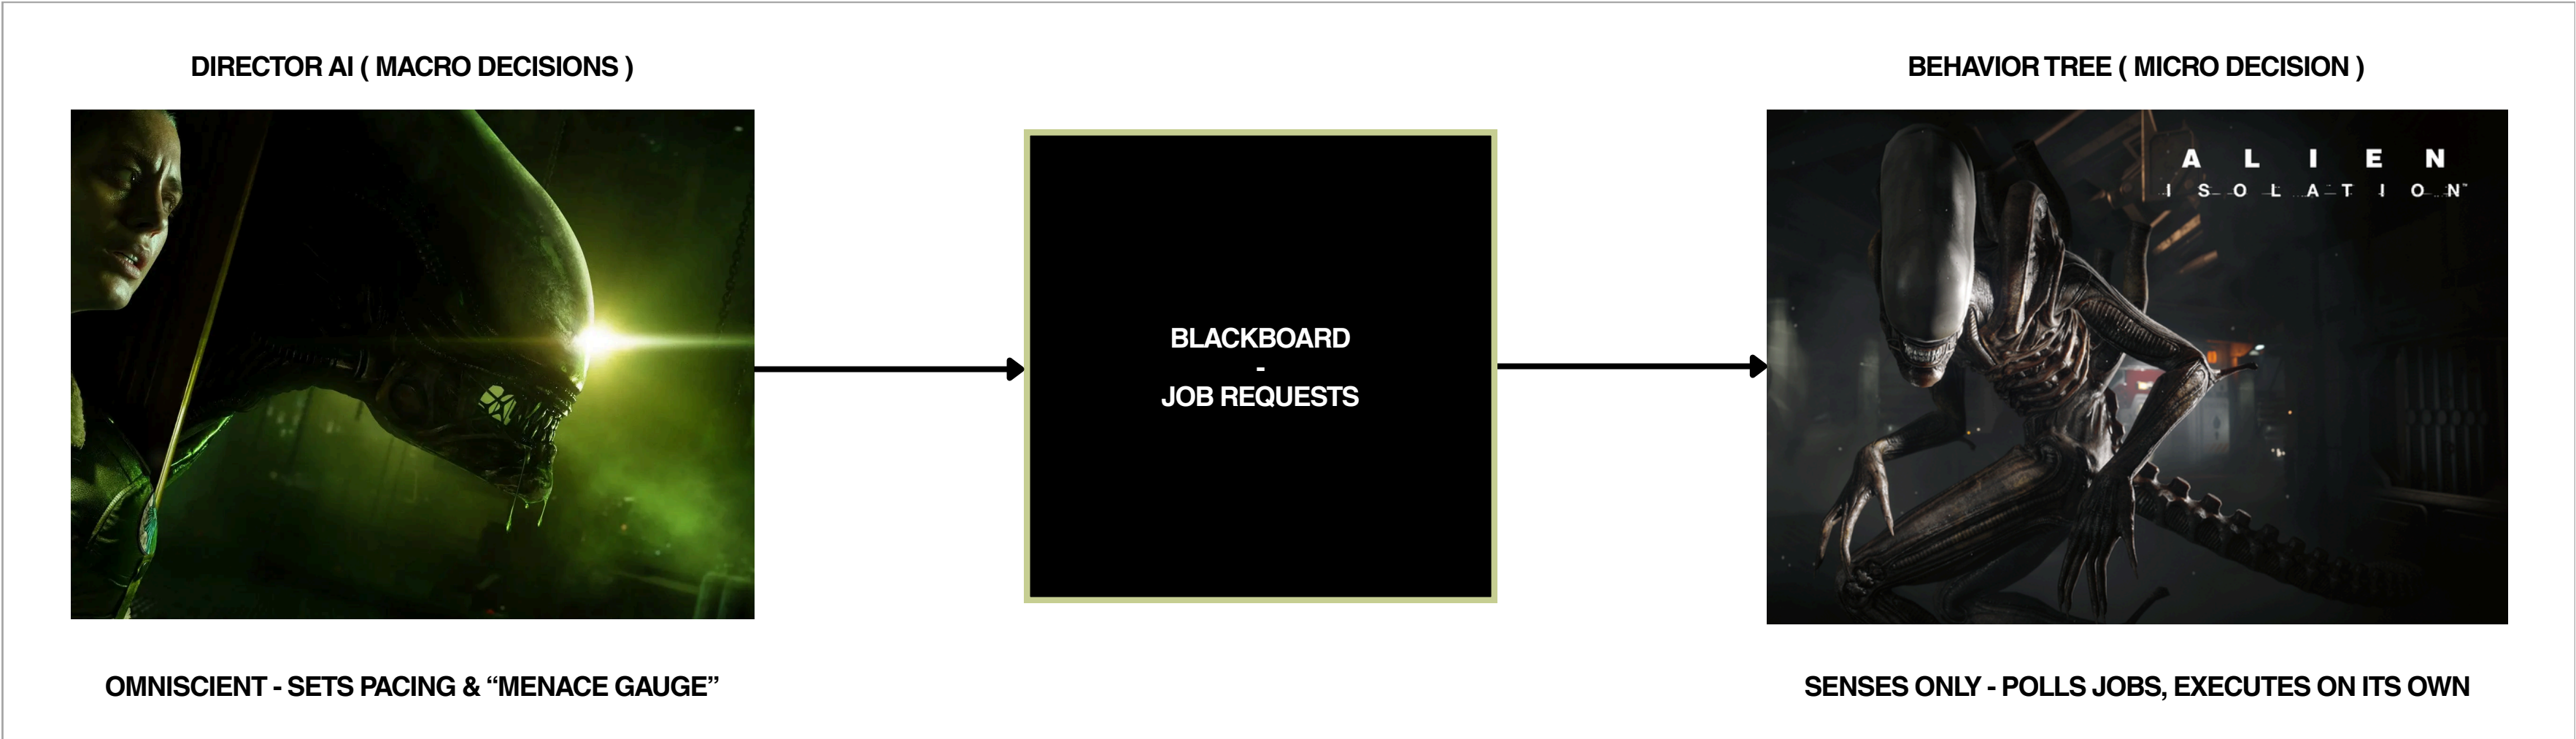

AN AI PREDATOR THAT SEEMS TO LEARN AND ADAPT TO YOU

WHAT IT ACTUALLY DOES

SOURCE
MATERIAL

ITS NOT MACHINE LEARNING

The Xenomorph does not adapt dynamically mid playthrough

NOT A SELF LEARNING MACHINE,
A SYSTEMIC ILLUSION OF ONE

RE-FRAMING THE GOAL

WHAT WE WANT TO AVOID

An unstoppable learning machine that eclipses the player's ability to adapt.

Escalation should invite the player to grow their own tactics for survival, not punish them with an unfair, invisible advantage.

WHAT WE ARE BUILDING

An Alien Agent that tracks player-behavior metrics and escalates its own gated behaviors over time, tailoring its approach to the individual player.

The same way Creative Assembly's Director + Behavior Tree system does.

LAYERED DECISION-MAKING

TECHNICAL
ARCHITECTURE

OMNISCIENT-LEVEL

MANAGES PACING CURVES SO ESCALATION NEVER BECOMES FRUSTRATING

HIGH-LEVEL

PROCESSES SENSES - AUGMENTS OR SWAPS STRATEGIES

MID-LEVEL

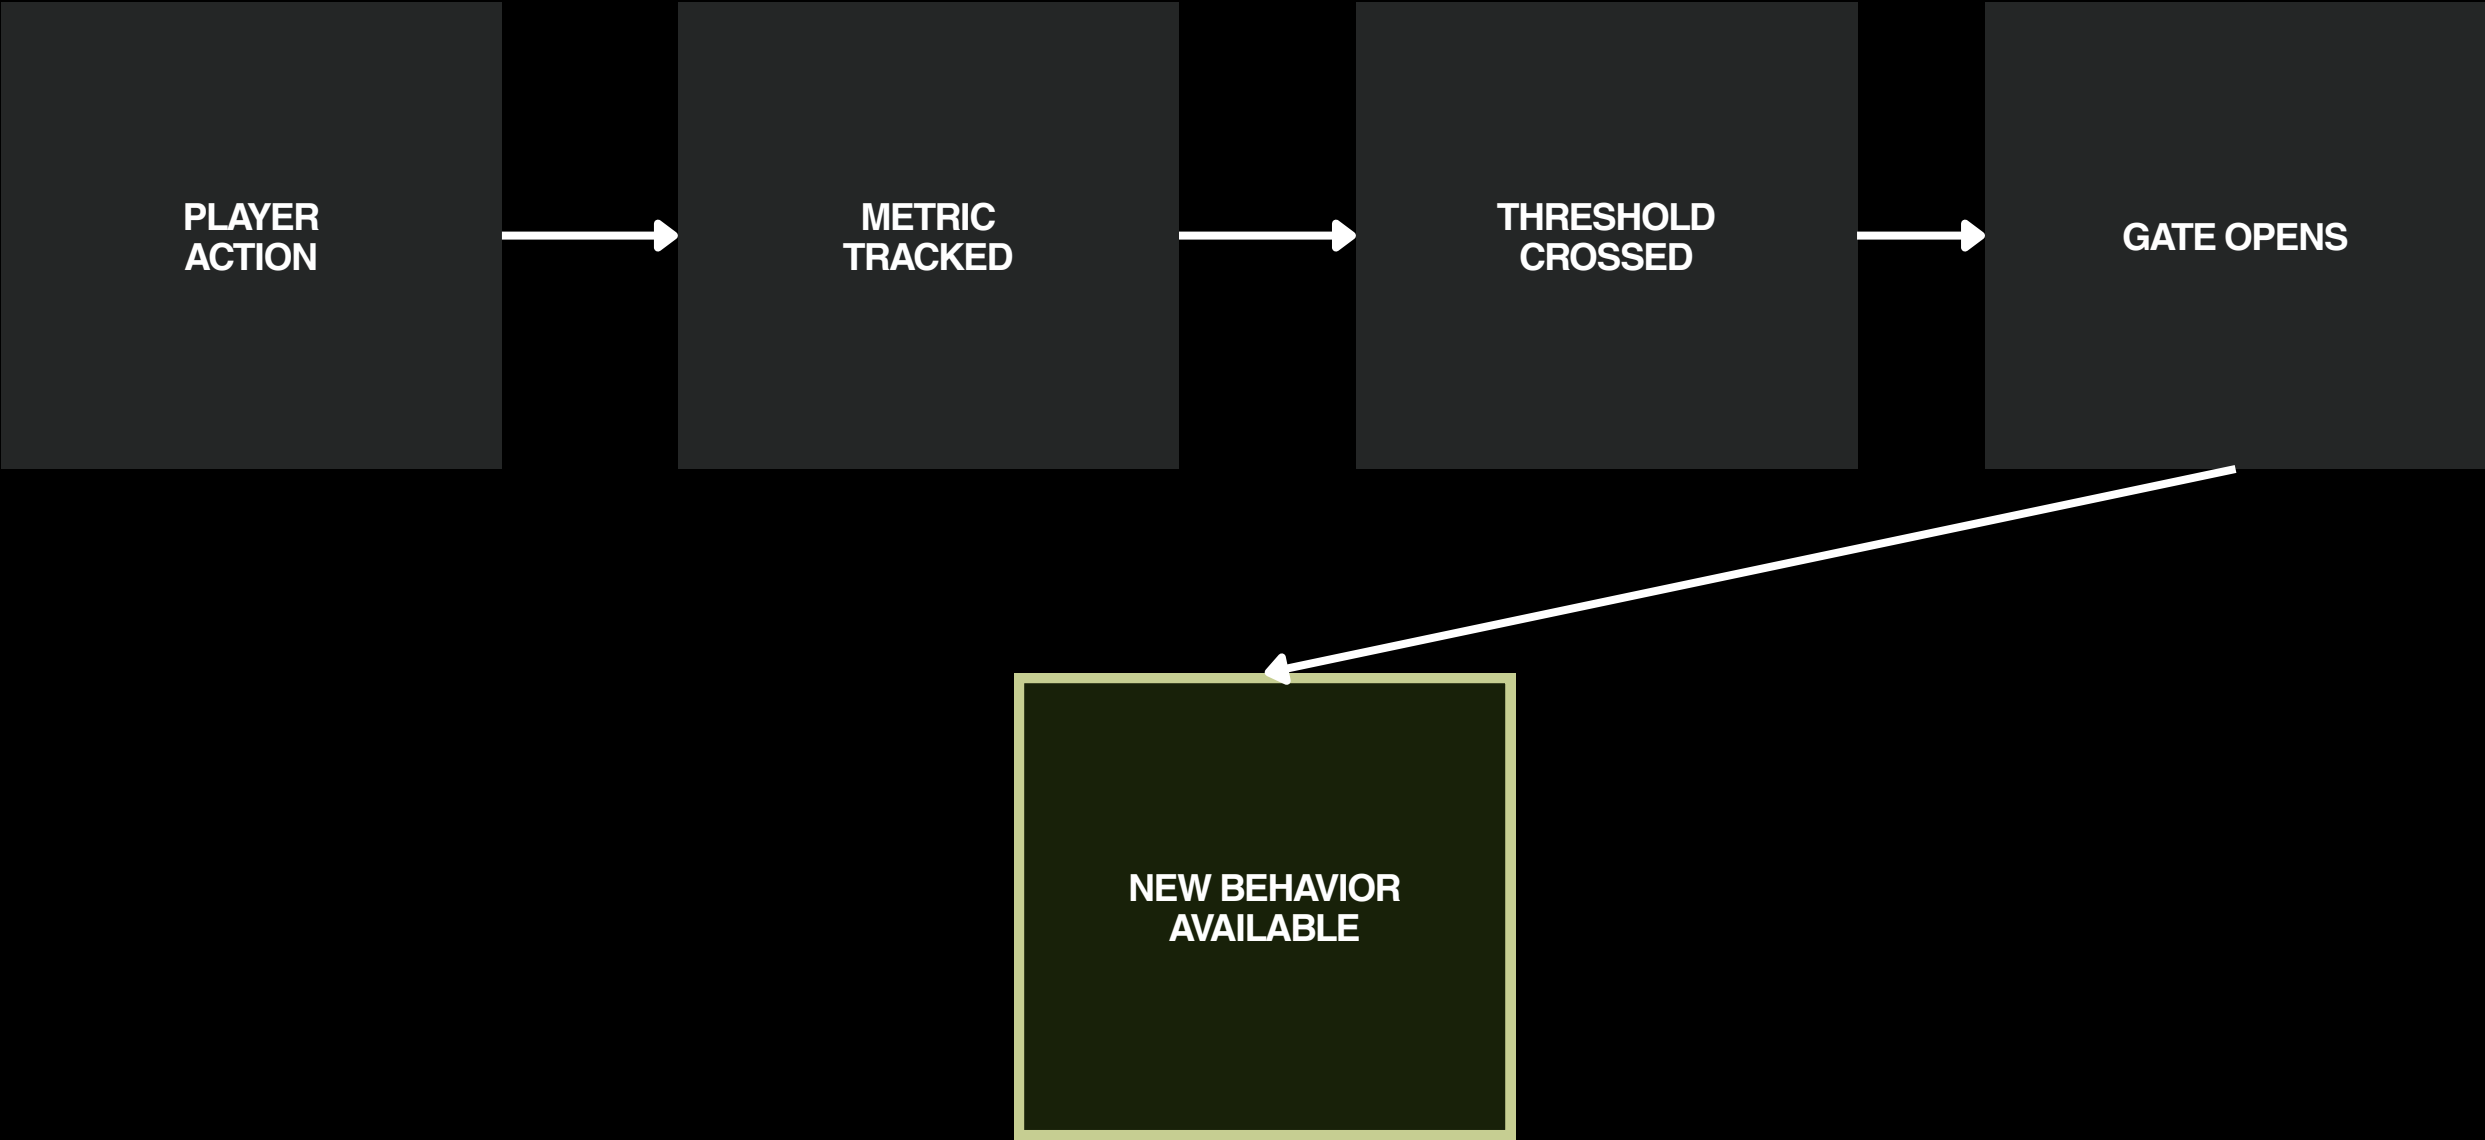

CARRIES OUT CURRENT STRATEGY

LOW-LEVEL

HANDLES BASIC SEARCH, CHASE & ATTACK BEHAVIORS

EACH LAYER MANAGES THE ONE BELOW IT

PLAYER METRICS & BEHAVIOR GATING

EXAMPLE METRICS: FLAMETHROWER USES, LOCKER/VENT HIDES, NOISE
EVENTS, TIME-IN-LINE-OF-SIGHT, REPEATED ESCAPE ROUTES.

NPC BEHAVIOR PROFILES

EXPERIMENT
DESIGN

THE CIVILIAN

Unprepared for the horrors of Sevastopol, this survivor is completely paralyzed by fear, resulting in a severe delay before reacting to danger.

THE TECHNICIAN

Possessing basic survival instincts, this worker takes a cautious second to assess a threat before springing into action.

THE GHOST

A master of evasion with zero reaction delay, this survivor actively tracks the Xenomorph's movement and constantly repositions to stay outside its danger zone.
